## 2. SOURCES FROM WHICH WE COLLECT PERSONAL INFORMATION

We collect the categories of Personal Information listed above from the following categories of sources: directly from you, from our affiliates (including other SPE affiliated entities (“Sony group companies”), and service providers that help us run our business, including data analytics companies, ad networks, social networks, internet service providers, and data resellers such as data management platforms. We also collect Personal Information via Tracking Technologies when you use our websites or mobile apps. SPE uses cookies and other tracking technologies (such as web beacons and software development kits) to collect and store information about your interactions with our Service (collectively, “Tracking Technologies”). Our websites also support third-party cookies placed by our service providers and third parties, such as advertising partners. This means that our service providers and advertising partners can collect and use information regarding your interactions with our websites as further detailed below.

SPE is giving you notice of the use of Tracking Technologies and your choices regarding them as explained in **Section 10** so that your consent is meaningfully informed.

### **A. Cookies and Other Tracking Technologies**

Cookies are small files that a website transfers to your device through a web browser that enable the site’s or a third party’s systems to recognize your device

and capture and remember certain information. Web beacons (also known as tracking pixels) are tiny graphics embedded invisibly on a webpage or in an email that may be used to deliver or communicate with cookies, to count users who have visited certain pages, and to understand usage patterns. In general, our websites use cookies and other tracking technologies as follows:

- Where necessary to run our website
- To optimize the functionality of our website
- For analytics purposes
- For purposes of ad targeting and marketing
- To determine if our email messages have been opened and acted upon

Cookies vary in how long they last. “Session cookies” terminate shortly after you terminate your internet session. “Persistent cookies” are stored on your device until a set expiration date. We use both session cookies and persistent cookies on our websites.

You may use our **Cookie Consent Tool** or adjust your browser settings to make changes to the types of cookies set on your device. Please visit <https://cookiepedia.co.uk> for more information about cookies.

## **B. Analytics**

SPE uses analytics services such as, without limitation, Google Analytics. These analytics services may use cookies and other Tracking Technologies to help SPE analyze Service users and how they interact with the Service. Information generated by these services (e.g., your IP address and other usage information) may be transmitted to and stored by analytics providers for purposes such as evaluating your use of the Service, compiling statistical reports on the Service’s activity, and providing other services relating to Service activity and other internet usage. Options for limiting our usage of analytics tools, including Google Analytics, are described in **Section 10**.

## **C. Session Monitoring**

Some of the technologies used on our websites allow us and our service providers to monitor and analyze how visitors use our websites in order to better understand user behavior and improve our Services. When you interact with us online, information related to your browsing behavior (such as clicks, cursor movement, and scrolling) may be collected by us and our service providers.

## **D. Online Advertising**

Our Service collects information about you to target advertisements to you when you browse the internet or use social media. More information on options for limiting online ads can be found in **Section 10**.

## **E. In-App Tracking Methods**

There are a variety of Tracking Technologies that may be included in mobile applications, which are not browser-based like cookies and are controlled by browser settings. Some use device identifiers or other identifiers such as “Ad IDs” to associate app user activity to a particular app and to track user activity across apps and/or devices. Features within our apps may allow you to disable some types of tracking in compliance law.

## **F. Third-Party Services and Social Features**

Certain features on the Service permit interactions that you initiate between the Service and certain websites, platforms, applications, or services operated by third parties (“Third-Party Service(s)”), such as third-party social networks (“Social Features”). Examples of Social Features include: enabling you to send content such as contacts and photos between the Service and a Third-Party Service; “liking” or “sharing” SPE’s content; logging in to the Service using your Third-Party Service account (e.g., using Facebook Connect to sign-in to the Service); and otherwise connecting the Service to a Third-Party Service (e.g., to pull or push information to or from the Service). If you use Third-Party Services, information you post or provide access to may be publicly displayed on our Service or by the Third-Party Service. Similarly, if you post information on a Third-Party Service that references us or our Service (e.g., by using a hashtag associated with SPE or Sony group companies), your post may be used on or in connection with the Service or otherwise by SPE and Sony group companies. Both SPE and the third party may have access to information about you and your use of our Service and the Third-Party Service.

## **G. Online Chat**

Some parts of our Service may offer interactive chat features to assist with answering questions, providing customer service, and similar purposes. When you participate in an interactive chat session, either with a virtual or live agent, the contents of the chat may be captured and kept as a transcript. By using these features, you understand that our vendors may process the information obtained through the chat to provide the Service on our behalf.

#### 8. INTERNATIONAL TRANSFER

SPE is based in the United States. If you are using our Service outside the United States, please be aware that information we obtain about you may be transferred to and processed in the United States or other jurisdictions outside your own, and may be accessed by the courts, law enforcement and national security authorities in those jurisdictions. By using our Service or otherwise providing your Personal Information to us, you acknowledge and consent to the international transfer and processing of your Personal Information as described in this Privacy Policy. For our international Privacy Policies, please click [here](#).

#### 9. CHILDREN'S PRIVACY

SPE does not knowingly collect Personal Information as defined by the U.S. Children's Privacy Protection Act ("COPPA") in a manner that is not permitted by COPPA. Any California residents under the age of eighteen (18) who have registered to use the Service, and who have posted content or information on the Service, can request removal by contacting SPE [here](#), detailing where the content or information is posted and attesting that you posted it. SPE will then make reasonable, good faith efforts to remove the post from prospective public view or anonymize it so the minor cannot be individually identified to the extent required by applicable law. This removal process cannot ensure complete or comprehensive removal. For instance, third parties may have republished or archived content by search engines and others that SPE does not control.

## 10. YOUR CHOICES

### A. Accessing and Changing Information

If you have registered an account with SPE, SPE provides you with tools and account settings to access, correct, delete, or modify certain information associated with your account. SPE will make good faith efforts to make such requested changes in SPE's then-active databases as soon as practicable. Further, we reserve the right to retain data as required by applicable law, and for so long as reasonably necessary to fulfill the purposes for which the data is retained except to the extent prohibited by applicable law.

### B. Choices About Tracking Technologies

**Tracking Technologies Generally.** Cookies and tracking pixels, among other Tracking Technologies, may generally be blocked, disabled, or removed by tools available as part of most browsers. You can also manage the use of some Tracking Technologies such as cookies and tracking pixels by using SPE's Cookie Consent Tool. Please be aware that each website uses its own cookies, so cookie preferences should be set for each SPE website. If you choose to use our Cookie Consent Tool, a preference cookie will be placed on your device in order to maintain your settings. If you later delete cookies from your device, you will also remove the preference cookie. Therefore, in order to remain opted out of Tracking technologies, you will have to go back to the Cookie Consent Tool and renew your choices.

**Do-Not-Track Signals.** Your browser settings may allow you to automatically transmit a "Do Not Track" signal to online services you visit. Note, however, there is no consensus as to what "Do Not Track" means in this context. Like many online services, SPE currently does not alter its practices when it receives a "Do Not Track" signal from a browser.

**Analytics and Advertising.** In addition to exercising your choices through our Cookie Consent Tool, you may exercise choices regarding the use of cookies

from Google Analytics by going to <https://tools.google.com/dlpage/gaoptout> or downloading the Google Analytics Opt-out Browser Add-on. You can personalize the ads you receive or opt out of ads from Google by visiting the [Google Ads Settings page](#). You may exercise choices regarding the use of cookies from Microsoft by going to <http://privacy.microsoft.com/en-us/privacystatement>.

You may choose whether to receive some interest-based advertising by submitting opt-outs. Some of the advertisers and service providers that perform advertising-related services for us may participate in the Digital Advertising Alliance's ("DAA") Self-Regulatory Program for Online Behavioral Advertising. To learn more about how you can exercise certain choices regarding interest-based advertising online, visit <http://www.aboutads.info/choices/>, and <http://www.aboutads.info/appchoices> for information on the DAA's opt-out program for mobile apps. Some of these companies may also be members of the Network Advertising Initiative ("NAI"). To learn more about the NAI and your opt-out options for their members, see <http://www.networkadvertising.org/choices/>. Opting out does not mean that you will no longer receive ads, but that the ads you see will no longer be relevant to your preferences. Also, if your browsers are configured to reject cookies when you visit these opt-out webpages, or you subsequently erase your cookies, use a different device or browser, or use a non-browser-based method of access (e.g., mobile app), your NAI / DAA browser-based opt-outs may not, or may no longer be effective.

**Mobile Apps.** With respect to SPE's mobile apps, you can stop all collection of data generated by use of the app by uninstalling the app. Also, you may be able to exercise specific privacy choices, such as enabling or disabling certain location-based services, by adjusting the permissions in your mobile device.

### **C. Choices About Communications**

You can opt out of receiving certain promotional communications (emails or text messaging) from SPE at any time by: (i) for promotional emails, clicking on the unsubscribe link and following the instructions provided, or changing your communication preferences within your account settings; and (ii) for text messages, following the instructions provided in text messages from SPE (i.e., text the word, "STOP"). Please note that your opt-out is limited to the email address or phone number used and will not affect subsequent subscriptions. If you opt-out of only certain communications, other types of communications may continue. Even if you opt-out of receiving all promotional communications, SPE may, subject to applicable law, continue to send you non-promotional communications, such as those about your account, transactions, servicing, or SPE's ongoing relationship with you.

#### **11. CHANGES TO THIS PRIVACY POLICY**

SPE reserves the right to revise this Privacy Policy at any time. Any changes will be effective upon the posting of the revised Privacy Policy unless otherwise

stated. Your continued use of the Service indicates your consent to the Privacy Policy then posted. If you do not agree, please discontinue use of the Service and uninstall Service downloads and applications.

12. CONTACT SPE
